You may use the database WorldCat to borrow books from another library, normally at no cost.

Go to Library Quick Links ➔ WorldCat

Type in a search. If you search a phrase, put it in “quotation marks.” You may leave the search as a keyword (general) search, or make it more specific—such as title, subject, etc.
Results will be in order by the number of libraries that own an item. You may change this order to Relevance or Date.

If you are looking for a particular book, you may prefer to focus on the most recent edition. Also, you will have more luck getting the book if you choose the book with Libraries Worldwide: 189 compared to the book with Libraries Worldwide: 4.
When you find the book you want, click on the link to Request via Interlibrary Loan.
If you have already set up an Interlibrary Loan (ILL) account, type in your Username and Password. Otherwise, click on First Time Users to register as a new user.

TIP: if you need to register as a First Time User, you will have to:

► use your WT e-mail address as your address
► list the people who you will allow to pick up your books, etc. for you from the ILL office.

List EVERYONE you would possibly ask to pick up your items. If they are not on the list, ILL is not authorized to give them your items.
After you type in your Username and Password, most/all of the information needed will automatically be typed into the request form. Make any changes you need to—but ALLOW THREE WEEKS FOR A BOOK TO BE RECEIVED.
ANOTHER SEARCH OPTION: If you are more interested in searching for a book on a particular topic, you may also search by keyword. To see the best books listed first, change the Rank by option to Relevance.

Instead of viewing All results, you might prefer to click on the tab for Books.
